The specification was objected to because the first paragraph of the specification has not been updated to reflect the current status of parent applications. By way of the foregoing amendments to the specification, the first paragraph of the application has been amended to reflect the current status of the parent applications and also to include the priority data recited in the Application Data Sheet filed July 30, 2001. Withdrawal of the objection is respectfully requested.

The Examiner requested copies of the non US-patent and non-PCT publications submitted in the Information Disclosure Statement of November 30, 2001. Copies are enclosed.

Claims 1-27 stand rejected under 35 U.S.C. § 101 as claiming the same invention as that of claims 1-27 U.S. Pat. No. 6,048,698. By way of the foregoing amendments to the claims, claims 1-27 have been canceled and replaced with new claims 28-52. Withdrawal of the 35 U.S.C. § 101 rejection is respectfully requested.
